Welcome

Dear Colleagues,

It is with great pleasure not only to observe the birth recently of the Emirates Psychiatrists chapter, but also to organize its first scientific conference under the umbrella of Arab Federation of Psychiatrists.

I am very much excited about this important occasion where in addition to attracting many regional and international key figures and leaders in Psychiatrists, I am confident that it will make significant changes in the awareness and implementation of the discipline.

Although the Mental Health and Psychological disorders have great impact on the health of people in this part of the world, little emphasis is being given to it in the past, I believe that the conference will provide a unique opportunity, for all concerned, to share & acquire knowledge and experience in wide spectrum of topics that is related to mental health care.

It is expected that the conference will have many learning tools of sessions, be it key note speeches, lectures, workshops, hands on training as well as structured poster sessions.

On behalf of the organizing committee I bid everybody a warm welcome to the beautiful city and the shopping paradise of Dubai, in the United Arab Emirates. I know you will find Dubai's cultural vibrancy to be matched by a dynamic medical knowledge.

I am honored to invite you to share with us the updated knowledge and recent developments in the field of Psychiatrists that is provided in this conference during a three days period from 29th November -1st of December 2012.

Dr. Adel Karrani
Conference Chairman
